Field visit report 2022 - 23

Date of visit- 30/11/2022

Place of visit- Krushi sanshodhan Kendra, Awashi

Department of botany conducted a field visit for all botany students. The aim of the field visit was to get the student acquired with biodiversity of plant and also observe their ecological behavior.

To study biodiversity we have prepare a schedule of one day in which we have collected information of different plants in krushi shanshodhan Kendra Awashi.

The park also comprises native flora which used to exist many decades before and then became extinct locally. The krushi shanshodhan Kendra is presently spread over an area of 39.08 ha.

At 9.00 am we left from khed to awashi and reached to the krushi shanshodha Kendra awashi at 10.30. Am students observes different plants and capture their photos to lean more information about plants. Students learn grafting of mango. Students observe many varieties of mango, medicinal plants, black pepper plants and also different types of compost.

We had return back to the home at 4.00 pm with fully satisfaction.
