Outcomes: Mission Innovation 2019-20: Techno Year

Here were some general outcomes that could be associated with a "techno year" initiative:

- 1. Technological advancements:** The initiative may aimed to showcase, promote, or contribute to advancements in various technological fields. This could include innovations in information technology, engineering, robotics, or other technical disciplines.
- 2. Increased awareness:** A "Techno Year" could serve as a platform to increase awareness and understanding of emerging technologies among students, faculty, and the community. This heightened awareness may lead to a greater interest in technological fields.
- 3. Skill development:** Events and programs during the "techno year" may provide opportunities for skill development in areas such as coding, programming, digital literacy, or other technical skills. Workshops, seminars, and hands-on activities may contribute to this outcome.
- 4. Entrepreneurship and innovation:** The "Techno Year" might encouraged entrepreneurial thinking and innovation. This could involve promoting startup competitions, hackathons, or initiatives that support students in developing and launching their own tech-related projects.
- 5. Networking opportunities:** The initiative may facilitate networking opportunities between students, faculty, and professionals in the technology sector. This could helped students connected with mentors, industry leaders, and potential collaborators.
- 6. Inspiration and motivation:** Through keynote speakers, success stories, and impactful presentations, the "techno year" may inspire and motivate individuals to pursue careers in technology and contribute to positive changes in society.

Here some teachers and students feedback forms about techno year were as follows:
