

● FIELD VISIT COLLECTION REPORT

The department of Zoology conducted a field visit for VI sem. Students on 10 Jan 2019 to 13 Jan 2019. The aim of the Field visit was to get the Students acquainted with biodiversity of birds and also to observe their ecological behaviour. The students was accompanied by the teacher of Zoology Dept. Miss. Rakhi Sheth

To study biodiversity we have prepare schedule of 4 days in which first 3 days we have collected information of birds in khed region. 1st day we have capture birds nearby Narangi River as well as area near to it. Next 2 days we have captured birds in kashedi ghat region. We have private vehicle from khed stand at 5:45 am to find our birds according to our schedule.

On The Narangi river region students had & interaction with the local people & knowing the different types of seasonal birds. The next day after reaching the site of kashedi region we observe the various species of birds & students had a brief information from Miss. Rakhi Sheth regarding the classification of species, habitat, ecological behaviour, conservation status etc.

The students had return back to the college from kashedi region with fully satisfaction
