

STUDY TOUR REPORT

“NATIONAL INSTITUTE OCEANOGRAPHY” PANAJI, GOA, dated on 04/02/2019

The students of Third Year B. Sc Department of Chemistry, Khed, Dist –Ratnagiri visited National Institute of Oceanography, Dona Paula, Goa. Total 20 students were participated for study tour. The students were given a brief introduction on “Understanding of seas”, different facts which are related to the history of NIO and some major goals which they have achieved. They also introduced on their current working sites. Scientist from NIO, gave a talk on fields and jobs available for Electronics and Telecommunication engineers in NIO. The students were also provided with information on autonomous robots and machines (like AUV and AVP) which are used in marine research for checking various aspects like water level, temperature, conductivity etc. The students got an opportunity to visit the archaeological findings and the entire marine related machines as well as non-living resources samplings. The field visit was organized by Prof.S.K.Ghumbre and Prof.S.S.Sagar. Overall it was enlightening and learning experience for the students of T.Y.BSc.
