

## ● Field Visit Report

The department of Zoology conducted a field visit to vermicompost unit in khed. The Aim of this field visit was to get all information about vermicomposting unit. We decide 2nd day of January 2019 for field visit.

As per our planning, on 2nd Jan 2019 went from college campus at 10 a.m. and visited a vermicompost unit Mr. S.S. Jadhav guided us. In these visit we gain all information about vermicomposting procedure and preparation of fertilizer. On the basis of this information we implant vermicomposting in our I.C.S. College and fertilizer come from this vermicomposting that we use in botanical garden as well as plants in our college.
